

International KARL-KOLLE-Prize for Metal Forming 2017

Call for Nominations

Objective

The German Metal Forming Association (AGU) may award the KARL-KOLLE-Prize to researchers to recognize their outstanding research achievements in the field of metal forming. The research outcome should be the basis for technological oriented innovation. The prize aims to support young researchers in their career.

Prize

The prize consists of a certificate of merit, a medal and a monetary award of €10,000.

Nomination and Selection

Candidates for the prize can be nominated by a third person or by the candidate her/himself. All applications must be submitted to the AGU in digital form including the CV, publication list and justification for the prize.

The AGU Prize Selection Committee is charged with reviewing the candidates' research activity and making a proposal to the Assembly of AGU that makes the final decision.

Eligibility

All young researchers (preferably below an age of 35) working in the field of metal forming are eligible as a candidate. The KARL-KOLLE-Prize is an international award.

Time Schedule

- Call for Nominations: 17th of October 2016
- Deadline for Nominations: 17th of February 2017
- Prize Announcement: March/April 2017
- Award Ceremony: 19th of September 2017 at the 12th ICTP in Cambridge/UK
(the travelling costs of the prize winner will be covered)

Application

Please forward your applications to karl-kolle-prize@iul.tu-dortmund.de.
